

Optimised LED technology
with a 180° window of attraction
for the fastest fly catch

Genus® | COBRA LED

Efficient | Sustainable | Cost-effective

#EngineeredWithTrust

Experience the world's **fastest fly trapping technology** — the **Genus® LED Range** — perfected through over **8,000 tests** and over **530 prototypes**, and a **70-year-old legacy** of creating better.

Genus® | COBRA LED

Superior Performance Meets Improved Sustainability

62% increased fly catch within 10 minutes as compared to the Genus® Cobra Fluorescent

Unique technology for faster and higher fly catch

Up to 3.5x increased fly catch within 10 minutes as compared to LED competitors

Translucent Technology™ provides a 180° window of attraction

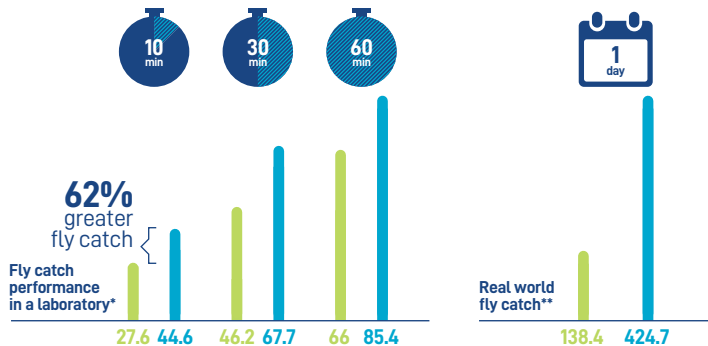

73% reduction in energy costs as compared to the Genus® Cobra Fluorescent

Competitor units provide only a 90° window of attraction

Genus® Cobra LED Fly Catch Performance

*All tests conducted in a controlled laboratory environment using varied strains of flies. *Field data has shown faster catch rates and a significantly wider variety of fly species being caught as compared to the Genus® Cobra Fluorescent. *Test data also available for fruit flies on request.

**The performance of Genus® LED units was better in a real world environment as compared to a controlled environment. **Based on tests conducted in a meat shop.

Unparalleled Savings — Genus® Cobra LED Vs Fluorescent

Number of Units	Energy Cost Savings (UK)***	Energy Cost Savings (US)***	CO ₂ Emission Savings***
1 unit in 1 year	£36.62	\$44.94	172 kg
100 units in 5 years	£18,308	\$22,469	86,061 kg

***Savings are calculated at £0.11 (\$0.135) per kWh. ***Based on GHG Conversion Factor of 0.51707

Reduction in Energy Consumption and Carbon Emissions

- Genus® Cobra Fluorescent
- Genus® Cobra LED
- LED Competitor

Driven to Achieve Sustainability Targets

The Genus® Cobra LED is in line with **UN Sustainable Development Goals**. The unit enables a 73% reduction in energy consumption and is already compliant with SDG goal 7.3, as against the UN timelines of 2030.

With its ability to reduce carbon emissions, it also plays a part in achieving SDG goal 13 for Climate Action.

A product ahead of it's time!

Areas of Application (Spaces with high flying insect activity)

Supermarkets and Retailers | Restaurants and Cafés | Hospitality Sector | Food/Meat/Fish Processing Plants | Pharmaceuticals
